## COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

A representative of the Food  
Stamp program will be in the Town  
Office Thursday, Sept. 19, from 9  
a. m. to 1 p. m. Anyone with ques-  
tions pertaining to the Program  
should come in at that time.

Mrs. Linda Sharp has been hired  
as bookkeeper/typist in the Town Of-  
ice. Mrs. Sharp attended Ridley  
Secretarial School, Binghamton, N.  
Y., and Massachusetts Community Col-  
lege, Abington, Mass. She has work-  
ed for several firms in Massachu-  
setts as receptionist, typist and book-  
keeper. We felt fortunate to find  
someone locally with a strong back-  
ground in bookkeeping as that was  
the area we needed the most help.

Mrs. Sharp is married to Wendall  
Sharp. They have a son, two years  
old, and live on Main Street here  
in Bethel.

The 1974 hunting law books have  
arrived in the office. Anyone who  
wishes may have one on request.

The Selectmen, at their last meet-  
ing, voted to pave Clark Street.  
There is a drainage problem there  
that must be corrected which will  
necessitate surfacing a part of the  
street. While we are doing that we  
feel the rest of the street should  
be done.

## S. A. D. 44 AD-HOC COMMITTEE HOLDS MEETING AT TELSTAR

—To Meet Sept. 17 at Andover  
and Sept. 24 at Woodstock  
The Ad Hoc Committee for Edu-  
cational Planning, S. A. D. 44, met  
in the Lecture Hall, Telstar Region-  
al High School, on Tuesday evening.  
Chairman William Cousing an-  
nounced that the committee will  
hold a meeting at the Andover Ele-  
mentary School at 7:30 next Tues-  
day evening, Sept. 17, and at the  
Woodstock Elementary School on  
Sept. 24.

There was discussion of the report  
of Engelhardt and Engelhardt  
which, if adopted by the Ad Hoc  
Committee as its recommendation to  
the S. A. D. 44 board, would close  
the Ethel Bisbee, Locke Mills, and  
R. C. Foster Schools. The report  
recommends the construction of an  
addition to the Crescent Park  
School to accommodate kindergar-  
ten through grade four of the Beth-  
el/Newry area plus all of the grades  
five and six of the district.

Under the Engelhardt plan the  
Woodstock and Andover schools  
would house the kindergarten  
through grade four classes of their  
respective areas.

Opposition has developed in areas  
of the district remote from the Cres-  
cent Park School location with re-  
gard to transportation of fifth and  
sixth graders away from their home  
areas.

Several alternate suggestions were  
discussed at the Tuesday session.  
Proponents of viable alternatives  
were asked to present outlines of  
their proposals for consideration at  
the Andover meeting on Sept. 17.

The Ad Hoc Committee is charged  
with making recommendations to  
the S. A. D. 44 board by the end of  
this month. Their recommendation  
may include proposals of Engelard  
and Engelhardt but the committee  
is not restricted to the viewpoints  
of the New York firm.

## MEETING AT ANDOVER HAS HEATED SCHOOL DISCUSSION

A meeting, which turned out to  
be a heated debate, was held by  
a group of citizens in Andover last  
week to learn more about the school  
study done by Engelhardt and En-  
gelhardt.

About 125 attended to hear the  
questions answered by Supt. Basil  
Kinnear, S. A. D. 44, and board  
members from Andover. At times  
tempers flared in the two hour  
meeting.

The report recommends that addi-  
tional school building space be pro-  
vided in Bethel for elementary stu-  
dents and fifth and sixth graders  
throughout S. A. D. 44 be transport-  
ed to this facility.

The study was made by the re-  
quest of Ad Hoc Committee, to S.  
A. D. 44 directors. The Andover  
group made it very clear that they  
do not want their fifth and sixth  
grade students transported to a  
school outside of Andover. They are  
not against construction of new  
buildings but are opposed to a 50-  
mile round trip each day.

On motion of Gerald Schacter a  
poll was taken of those present and  
an overwhelming majority approved  
his resolution that Andover's fifth  
and sixth graders should attend  
school in Andover. There were no

trustee, Rolly Chapman, the new  
state of officer-nominees was pre-  
sented by Carroll Valentine, Chair-  
man of the nominating committee.  
The panel was elected unanimously,  
as follows: President, Margaret  
Joy Tibbetts; Vice President, John  
Willard; Secretary, Mrs. Vernon  
Brown; Treasurer, Mrs. Roderick  
McMillin, and Trustee, Mrs. Flori-

It was decided that the Society's

## CONGRESSMAN COHEN SPOKE AT GOULD MONDAY

Republican Congressman William  
S. Cohen made a campaign appear-  
ance in Bethel Monday in Bingham  
Hall at Gould Academy before  
townspeople, students and faculty.

Cohen, who is seeking re-election  
to a second term, spoke informally  
about a variety of issues but was  
questioned primarily about the  
Watergate issue and his role as a  
member of the House Judiciary  
Committee.

"I don't like to pass judgement on  
another human being," Cohen said.  
"but I feel that the Judiciary Com-  
mittee hearings demonstrated some-  
thing strong about our country. It  
was a tremendous testimony to the  
Constitution and the concept of the  
orderly transfer of power. The en-  
tire matter proved that no one  
stands above the law."

Asked about his views concerning  
President Gerald Ford's recent  
pardon of Richard Nixon, Cohen  
said it was "premature."

"The pardon creates a problem  
in the upcoming trials of former  
presidential aides John Erlichman,  
H. R. Haldeman and former At-  
torney General John Mitchell," Co-  
hen said. "A jury will have difficul-  
ty convicting subordinates who were  
obeying orders of the chief execu-  
tive."

Cohen went on to say that he did  
not want to see the former presi-  
dent persecuted. "I don't think that  
we could impose any more exquiste  
punishment on Mr. Nixon than the  
one he has suffered from the loss  
of his office," he said.

In a discussion of economic issues  
and inflation, Cohen called for re-  
duced federal spending, increased  
production and limitation of ex-  
ports of raw materials vital to in-  
dustry at home. He cited the prob-  
lems of Maine's shoe industry as  
an example of exports which must  
be limited in order to protect the  
American worker and consumer.

Mrs. Norma Buck has resumed  
her work at Ledgeview Nursing  
Home in West Paris.

## GREENWOOD CITY

— Mrs. Colista Morgan, Corrae. —  
On Thursday, four of us gathered for a hike. Ruth was back! No day could have been more perfect; warm, yet breezes among the arches of the trees.

Ruth left her car near the main road and we took a side road into the forest. Most of the way the liquid tinkling of a brook followed us. I remember the sound. It was bell-tinkling, similar to an empty tin can being lifted and dropped rhythmically by slow ripples among the pebbles. If you have heard the cowbell at a distance at twilight, you know my brook.

The road led uphill most of the way, rough, and rocky, but not steep. It was like walking through a fern garden; so lush and green, tall and graceful they were. Growing on the shady brook side, these waving days and frost-suggestive nights that prove discouraging to the flower world; we were glad to see them in the autumnal world stout and vigorous.

The asters, as well as the golden-rod added glory with their regal mantle of purple and gold as they combined in radiant display.

We strolled along and finally came to open fields and a house in a setting of peace and quiet. Tall pines, with silvery and perpetually talkative needles at the front and an interesting cliff in the distance, behind and beyond the silence, I was left with an endless curiosity about this lonely place and I would have liked to have found what was beyond.

Forests were on both sides of the road and in places new timber cut scents disseminated through the soft air.

The motionless sky gleamed peacefully blue between the branches of the trees.

Reaching the car, we thought the hike had been far too short so we took another. This was short too, but a beautiful spot. In places there was a soft green carpet while in others we climbed over great slabs of rock, mottled with leathery patches of lichens. Looking down from the bare top of a promontory we could see two ponds and the roof of a lonely house. The woods spread up the valley to the farthest limits of vision. All across the wide expanse of land, cloud shadows and patches of sunshine followed each other, dappling the floor of the valley.

The birds were scarce. In days

Guests from Good Faith Lodge, Buckfield; Mt. Pleasant Lodge, South Paris; Mt. Hope Lodge, Norway; Sunset Lodge, Bethel, and friends and relatives of the honored guests, also guests from Mexico. Refreshments were served.

like these, so bright and peaceful, we notice that our familiar birds are daily and nightly slipping away. The sun sets crimson and the robin sings no more. It is time for them to go, for though the days are warm and food plentiful the nights are growing cold.

So we left our view to return. Thinking in this fashion we reached home. From tiny flowers came the humming of bees for the insects are the artists of fragrance. They have a genius for it.

My attention was then arrested by two humming birds, a few yards from me. One took shelter amid some branches, and squeaked excitedly. The other circled above, then descended as if to dislodge the first. Seeing me he dropped like a feather on a slender twig, and in a moment both were gone. I turned my key and went inside.

## CUT OUT THE STALLING!

By Wall Cherry

Organization, support, and management, will be the key ingredients to change the dream of a 24-hour a day, seven days a week, family health care center into a reality. The first two requisites are inseparable. A game plan, no matter how sufficient unto itself, will falter without support. We are well on our way to first base, but without support, we won't get there.

Inasmuch as the Bethel Health and Services Council has led the search thus far for new doctors in the area, it is the logical organization to turn on. It needs minor changes in its charter and in one or two of its personnel, but these are minimal and will cause no serious problem or delay. It is structured soundly for the business of leading a drive to provide better health care for the area's people. However, it needs an infusion of energy and brainpower by way of additional people for the myriad of committee assignments to be tackled.

The responses to personal invitations to join the enterprise, and to my own efforts in trying to drum up interest in the health center, have been disappointing. The area seems to be steeping in negativism, complacency, and I fear, apathy.

I frequently hear the well-intentioned remark, "It's a good idea, I'm all for it, but I'm too busy, spread too thin, doing too much already". Ladies and gentlemen—there is no business, social, civic, political, or fraternal activity in which you may be engaged that even approaches the importance of obtaining adequate health care for you and your family.

The Health Council directors have located an available site, obtained rough figures on the cost of an appropriate building, and have been seriously negotiating with nearby hospitals and the Tri-County Health Planning Association to obtain the services of sufficient licensed doctors to man the projected health care facility, assisted by a para-professional staff. There is every reason to believe that total success is possible. Yet there is understandable stalling because of failure of the public to show interest other than an occasional pat on the back or restatements that "We really ought to do something about it." The "we" is you, and if you sit back doing nothing, expecting a neat package ready for your contribution of a few dollars, nothing is going to be done.

This publicity campaign, so far as this writer is concerned, was directed not at the hangers-on who rarely, if ever, do anything for their community. It was targeted toward those among you who have demonstrated business sense, organizational skills and community spirit. Among your group, I felt sure that only the immortals who will never be sick could possibly be apathetic toward the most serious problem we have in the area. Evidently I was wrong. Evidently you do not mind that the sick among us must wait until a doctor is available, and when one is available, that a person must share the same appointment with 20 other people.

Apparently, you do not realize that those of you who enjoy perfect health have the most to lose when convenient medical care is not available. Obviously, you do not lose sleep over the possibility that trauma may strike in your home. If you realized these things, it seems to me, you would jump at the chance to help speed the day when all this could be changed.

Here is your chance to "really do something". Don't blow it! Get in touch with the Health Council Directors. Tell them: "Look, let's cut out the stalling. I'm ready to help. What do you want me to do?"

## S. A. D. 44 MUSIC TUNES UP FOR NEW SCHOOL YEAR

Even before the re-opening of school, the Telstar Marching Band broke out their instruments and flags to begin preparing for the upcoming football season.

Under the direction of Mr. Glenn Bangs, the Marching Band, Flag Guard, Color Guard, and Majorettes held their first practice Aug. 22, with three more practices before Sept. 4.

During these pre-season practices, besides learning new music, the band has been hard at work learning a new and exciting half-time show.

Each year the groups grow bigger and better. This year, at the season's four home games, they'll be marching onto the field with about 80 members.

The first home game is Sept. 14, and the band extends a cordial invitation for everyone to come and see if "practice makes perfect!"

With the beginning of the new school year comes the beginning of a new and different district music program.

We now have two music teachers, stationed at Telstar, who travel around the district teaching their own specialties.

Mr. Bangs, Telstar's current music teacher, will concentrate strictly with beginning to advanced instrumental instruction in grades 5-12, classroom work in grades 7-12 as well as the various instrumental groups. This is different from previous years when Mr. Bangs taught only at Telstar and Mrs. Edith Eyppey taught in the elementary.

Taking over the choral activities and elementary classroom work is the newest member of our musical family, Mrs. Patricia Ormrod. Mrs. Ormrod will travel throughout the district taking Mrs. Eyppey's place as elementary music teacher, and will also be involved with new choral groups at Telstar.

I look for new and great things in the music program this year and I hope it receives the support it deserves.

I'll be back with more every week or so to let you in on what's taking place with music in S. A. D. 44.

**THINKING OUT LOUD** — It has been said that in business it is not the crook you have to worry about — it's the honest man who doesn't know what he's doing. Some people are wondering if the same rule applies to politics.

## CO-OP CORNER

David H. Davidson

We are going to reinstate the Co-Op Corner this year to pay tribute to the students and their employers that participate in the program. The Cooperative Education program is now starting its third year of providing vocational training opportunities for students at Telstar Regional High School. The primary objectives of the program for the students are:

— **Career Exploration**—to allow students to explore occupations they feel they are interested in pursuing for a career.

— **Skill Training**—to provide an opportunity for students to learn the skills necessary to continue their careers after they complete their education.

— **Work Experience**—to assist students in making the transition from being students to that of employees, i. e., to teach students about the world of work and to help them learn good work habits.

## HISTORICAL SOCIETY ELECTS

continued from Page One

fiscal year should no longer be September 1 to August 31, but should henceforth match the calen- dar year. Thus dues will be payable at the January meeting. It was also voted that the Society's present prohibition against smoking any- where on the premises be waived, in respect of the Meeting Room on- ly, on those occasions when the Meeting Room is used on a rental basis. It was noted that on all such occasions an employee of the So- ciety will be on duty on the prem- ises.

Following the business meeting an "audience participation" period was held, the members breaking up in- to small groups to give their ideas as to future plans and projects for the Society, as well as submitting criticisms of its present operation. This produced far more ideas than criticisms—a highly favorable com- mentary on the present leadership of the Society. Unlike some such or- ganizations, Bethel's Historical So- ciety is a dynamic one. Tracing his- tory's relationship to the present is a continuing process and the coming months will show how this is demonstrated in the Society's ac- tivities.

The Bookmobile will be in town on Wednesday, Sept. 18.

## NORTHWEST BETHEL

—Mrs. Louise B. Chapman, Correspondent—

Now that Sarah is an official member of the school set, things are quite different around the household. The early morning bustle is followed by the quiet of having only one home, Allison, at times, enjoys the solitude, but at other times misses her playmate. I sometimes wonder if she misses Sarah or having a sparring partner. The first day of school was of course highlighted by the ride on the bus. As of this writing, that novelty still has not worn off. School is certainly a learning experience. Each day Sarah comes home telling of a new friend or experience. School is the first stepping stone to adulthood, a step that sometimes you hate to see your youngster take. However, that stone is a sturdy one!

Andy Smith stays with Sue Angvine after his morning session at kindergarten.

A lovely week end after the rain. The State Fair at Lewiston certainly had a good start. When Oxford County Fair rolls around, the show-ers will be rolling around as usual. Eveline Barrett has the old flu bug and went to Dr. Martin's, Bethel, on Monday for medication. That makes two visits of flu since Aug. 10. That's enough.

Elmon Seavey moved his camper home from Albion, Maine, on Thursday. He had been working on bridge construction for "Susi".

The North Paris Co. store is being stocked and will soon be open for business by the Kontoes.

The Best Way To Save Energy Is By Calling Your Oil Dealer.

Unbelievable or not, the fact is, we can do a great deal to save energy, and in the process save you money.

**FACT:** oil heat directly fired saves 3 times the oil it takes to generate the same heat by electricity or any other indirect energy source.

**FACT:** most oil burners could use a quick inexpensive tune up that could save you 20% or more each year. Like all appliances, your oil furnace needs a little maintenance to run more efficiently. It will run cleaner too.

**FACT:** Our company wants to do all we can to save you money. Give us a call, we will be glad to show you how to use less of a good thing.

# How to Make More on Your Savings in the Long Run

If you're like most people, you have some sort of savings account. And you may be earning as much as 7 1/2% simple annual interest. But if you've got all your savings in a single account, Casco Bank may be able to show you a way to get more for your money.

It's Casco's 2-in-1 savings idea. And the way it works is simple. You keep part of your savings in a day-in/day-out account where you can make deposits or withdrawals as often as you wish. And you keep your more permanent savings in a savings certificate where you earn a higher rate of interest.

For example, if you put \$1,000 in a Four Year Savings Certificate, you earn 7 1/2% simple annual interest. With Casco's daily compounding, your actual annual yield is even higher.

Of course, should you withdraw money ahead of time from a term savings plan, there's a substantial interest penalty and you should find out the details before you make a commitment. But if you can make more from your money, isn't it silly not to?

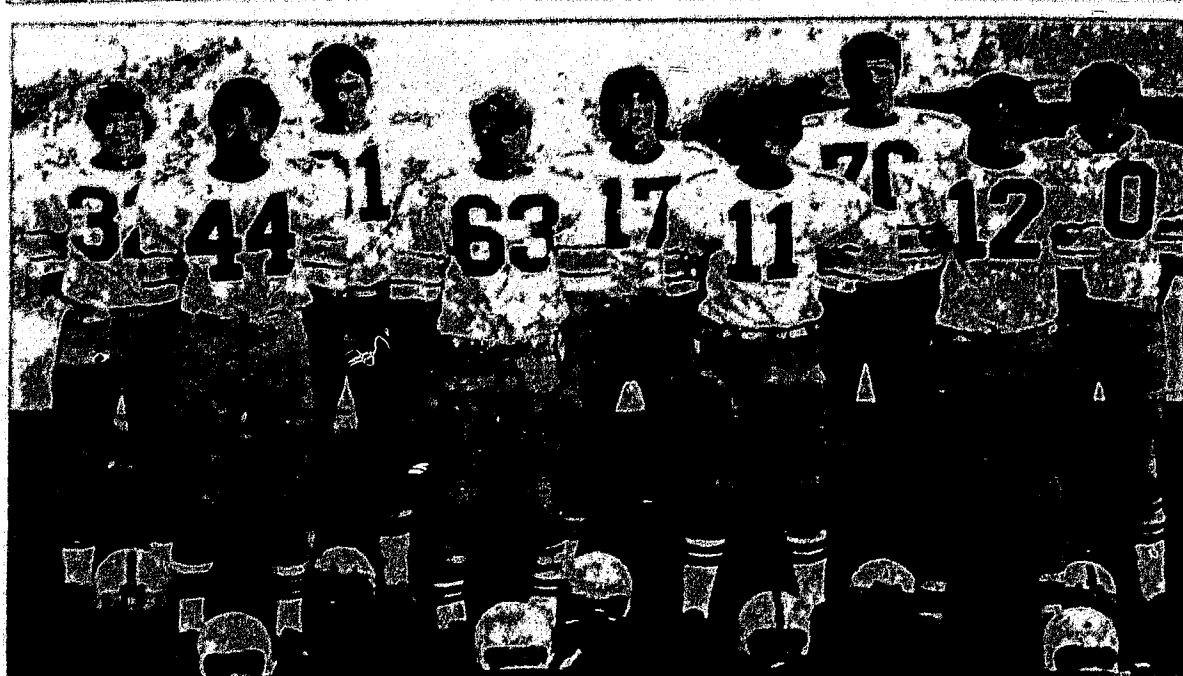

Stop by your Casco office and ask how you can do better in the long run.

We're always thinking...

#### WHAT IS HEAD START?

To 17 four-year olds, Head Start is exactly what the name implies. Head Start is a group of dedicated adults working with children to give them a head start into adulthood. Head Start is a director, a teacher and a teacher aide, a community aide, a community leader, and a policy council. Head Start is parents working with their children through parent committees. Each have their own purpose in the Head Start program, and in turn, each helps the others. Head Start is also a dedicated doctor, dentist, and volunteer nurse. Head Start is all these things and more. Would you like to learn more about all these people and their functions? You can you know. All you have to do is pay a visit to your Head Start center here in Bethel. It's closer than you think. This year the center is located at the Congregational Church. The children have four days of school a week, Monday-Thursday from 9:00-1:00. Classes will begin Monday, Sept. 23. Throughout the year we plan to have open houses, but you don't have to wait, the door to the center is always open.

If you followed the Head Start article last year, you know we are always grateful for donations. Right now our most urgent need is for rugs or pieces of carpet. We use these primarily for story time or during rest periods. Also we would appreciate an old pup tent or child's play tent, and an adult desk. A very unusual item is needed this year. We have the facilities for someone to come in and cook our children their hot lunch. Is there anyone with a couple of free hours Monday-Thursday who would like to do this for 17 youngsters? They would be very grateful, and we're sure you'd find it very rewarding. For further information call Judy Bean, 824-2383, Sandra Savage, Bryant Pond 120-21, or Louise Chapman, 636-3291. Until next week - remember, "It's a small world."

Evening Sewing Classes will start the last week in September. Lillian Conant will teach a class Tuesdays starting Sept. 24.
